- **Frameworks & Libraries:** React js, Vue js, SpringBoot, Express js
- **Tools:** Git, VS Code, Postman, IntelliJ

Soft Skills

- Problem Solving
- Communication
- Teamwork
- Adaptability

Interests

- Software development
- Technology trends

I am a passionate and dedicated software developer currently pursuing an Advanced Diploma in ICT (Application Development). With a strong foundation in programming and database management, I am eager to apply my skills in real-world projects. I am currently working as a Software Development Intern at CAPACITI, gaining hands-on experience in software development, problem-solving, and application deployment.

Education

- Advanced Diploma in ICT (Application Development) - Currently
- Diploma in ICT – Completed 2024 (Awaiting on certificate)
- Higher Certificate in ICT – Completed in 2020
- Nation Senior Certificate – Completed in 2019

Work Experience

- Software Development Intern – CAPACITI, Cape Town, Western Cape (2025 – Present, Full-Time)
 - Focused on Systems Development and industry-aligned software practices.
 - Working on the development, testing, and maintenance of applications.
- - Gaining hands-on experience in database creation and management, API integration, and debugging applications.
- - Learning and applying agile development methodologies to deliver high-quality software solutions.

Achievements and Key Projects

- Developed a User & Admin Dashboard with Firebase integration
- Created a Resource Management System that allows users to request and access resource
- Worked on a Chatbot project for CAPACITI FAQ's
